SUMMARY

Senior Full Stack Developer with **6+** years of **experience** designing and delivering scalable web and mobile applications. Specialized in **React (Native & Web)**, **TypeScript**, and **AWS cloud services** (Lambda, API Gateway, DynamoDB, Cognito). Skilled in **microservices**, **serverless architectures**, and **infrastructure as code (Terraform)**, with strong expertise in **CI/CD automation**, **DevOps practices**, and **Agile/Scrum methodologies**. Passionate about solving complex challenges through clean, efficient, and cloud-native solutions.

WORK EXPERIENCE

Dormakaba

Madrid

Senior full stack engineer

Jan 2025 - Present

- Developed a modern frontend with **React (Vite)**, **TypeScript**, and **Redux Toolkit**, improving reusability, accessibility, and application performance.
- Engineered serverless backends on **AWS** using **Lambda**, **API Gateway**, **DynamoDB**, and **S3**, ensuring scalable, cost-efficient, and maintainable solutions.
- Implemented secure authentication and authorization flows with **Cognito**, **IAM**, and **Verified Permissions**, enabling fine-grained API access control.
- Optimized global delivery by integrating **CloudFront** and strengthened security through centralized secret management with **AWS Secrets Manager**.
- Designed and integrated **REST** and event-driven **APIs**, and centralized observability with **CloudWatch** to improve monitoring and reliability.
- Automated infrastructure provisioning and deployments with **Terraform**, and enhanced **CI/CD** pipelines in **Jenkins** with automated testing and **SonarQube** quality gates.
- Collaborated in a **SAFe Agile** environment, actively contributing to **PI Planning**, **system demos**, and **technical reviews** to align business and technical goals.

Madrid

React native engineer

Aug 2022 - Jan 2025

- Developed **Android/iOS** applications with **React Native** and **TypeScript**, strengthening code quality and maintainability while improving user experience.
- Implemented state management with **Redux** and **React Hooks**, reducing complexity and optimizing runtime performance.
- Designed and executed unit tests, ensuring application stability, functionality, and consistent high-quality releases.
- Researched and adopted emerging trends and best practices, proactively enhancing development efficiency and application performance.
- Utilized **Git** for version control, enabling efficient collaboration and streamlined workflows in agile teams.
- Collaborated with cross-functional teams, actively contributing to sprint planning, technical discussions, and code

Varadero Software Factory

Madrid

Full stack Engineer

Mar 2019 - Aug 2022

- Redesigned and optimized the front-end architecture of an existing platform with **React**, improving code efficiency by **35%**.
- Led the analysis and development of 5+ **Android/iOS** applications with **React Native**, reducing development time by **40%** and increasing user engagement by **60%** across platforms.
- Optimized mobile application codebases by implementing best practices, cutting load times by **50%** and raising customer satisfaction to an all-time high of **4.8/5**.
- Developed a robust backend system using **.NET**, boosting application performance by **40%** and ensuring greater scalability.

SKILLS

<i>Frontend development</i>	React Native, React, Next.js, Vite, TypeScript, Redux Toolkit
<i>Backend Development</i>	Node.js, Express, .NET, serverless (AWS Lambda, API Gateway)
<i>Databases</i>	DynamoDB, MongoDB, Firebase Firestore, MySQL, PostgreSQL, MariaDB
<i>Cloud & Infrastructure</i>	AWS (Cognito, CloudFront, S3, Secrets Manager), Azure, Terraform, Jenkins, CI/CD pipelines, SonarQube
<i>Testing & Quality</i>	React Testing Library, Cypress, unit/integration testing, automated quality gates
<i>Agile & Collaboration</i>	SAFe Agile, Git, code reviews, cross-functional teamwork

EDUCATION

IMF Business School <i>Master of Education, Cybersecurity</i>	Madrid <i>Graduation Date: Jun 2021</i>
IMF Business School <i>Higher Technician, Web Application Development</i>	Madrid <i>Graduation Date: Jun 2020</i>
IMF Business School <i>Higher Technician, Cross-Platform Application Development</i>	Madrid <i>Graduation Date: Jun 2019</i>
